

**Lake Local Schools
Instrumental Music Department
Private Lesson Form**

Private lessons are highly recommended for all band students, whether the student is behind and needs to catch up, or even if the student is ahead and would like to accelerate their knowledge of their instrument even more. In private lessons, students receive one-on-one instruction from a highly qualified teacher that they cannot receive in a large band setting or even a sectional. Please fill out the information requested below and the directors will forward it on to a private lesson teacher. The private lesson teacher should be able to work around your schedule when possible.
