

Principal's Message to Families:

Providing Education to Achieve Success is our mission here at Lake Elementary! Lake Elementary provides our students with an enriched and engaging curriculum. Our educational program is designed to meet the needs of each student so that everyone is successful and grows academically. The staff and community of our school believe that every child is a unique and special individual who can learn. We have developed a nurturing environment for learning and are committed to providing opportunities that will assist our students in making self-directed, realistic, and responsible decisions when solving problems in our ever-changing world.

Parents and guardians play a key role in the education of their children. Your words of encouragement, hugs after a tough day at school, lunches with your child, and overall support go a long way in promoting student success. As a staff, we value and appreciate when you meet and talk with us, join the PTO, and volunteer your time and energy. Your involvement will show your children that you value their education. As partners in education, it is very important that teachers, parents, and administrators communicate openly and frequently concerning the progress of students. Let's work together this year to make sure that all of our students are successful!

Mrs. Donna Bruner
Principal

School Counselor's Message to Families:

The school counselor is available to meet individually with students to discuss personal, emotional, academic, behavioral, and/or social concerns or challenges. If a number of students are experiencing similar concerns, small group counseling sessions may be provided (i.e., divorce, grief, anger management, making friends, etc.). Individual or group counseling sessions can be initiated at the request of the student, a family member, teacher, administrator or concerned peer.

Yearlong classroom guidance lessons are taught promoting good character and positive choices through interactive student activities and discussions.

The school counselor is also available to meet with parents or guardians during conferences and throughout the year. Please know that we at Lake Elementary School are here to support and serve your children while providing the best quality education possible. If the counseling office can help assist or support you in any way or if you do not want your child participating in counseling services, please contact our office at (330) 877-4276 ext. 4212.

Miss Shirley Sloan
Licensed Professional School Counselor
