

# LAKE MIDDLE SCHOOL

June 7, 2011

Dear Parents & Guardians of Incoming 7<sup>th</sup> Graders:

**All students must have the Tdap vaccination prior to entering the 7<sup>th</sup> grade August 24, 2011.**

If your child has already had the Tdap vaccination, you may have your physician fax an updated immunization record to the middle school clinic (330-877-1384) or drop off a copy to the middle school clinic beginning in August. Many students have already had this Tdap vaccination and the school needs to have it on file for compliancy.

Call your doctor or the Stark County Health Department at 330-493-9928 ext. 111 if you have questions regarding this vaccination. Call your doctor's office or the health department soon because if you wait until mid-summer or August you may not get an appointment prior to the first day of school.

Note: The Stark County Health Department gives the vaccination for \$14.00. Many insurances do not cover the cost of this vaccination. Call your insurance company before making an appointment with your physician. A schedule of Stark County immunization clinics can be found on the back of this paper.

Sincerely,

Therese Gilbert, RN, BSN  
School Nurse Coordinator  
✧Contact: 330-877-9383✧
